All In One™

Single-use Snare Probe

ALL IN ONE™ Snare Probe, with a variety of functions:

mark, resection, dissection, electronic snare cut, and coagulation hemostasis.

Benefits:

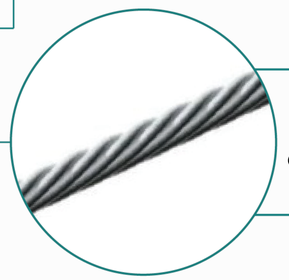

- Hybrid technique for ESD/EMR, POEM, etc.
- Complete lesion resection with one instrument.
- More convenient, time-efficient, cost-saving.

Pioneer concept proved by clinic

Use snare tip as needle knife for incision and dissection.

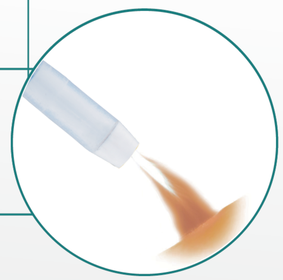

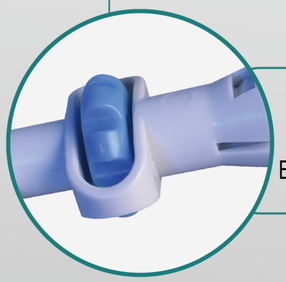

Multifilament loop wire ensures safe and fluent cut.

Argon gas spray for mark and coagulation

Make Life More Healthy

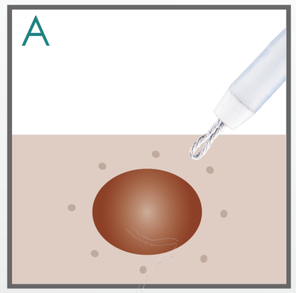

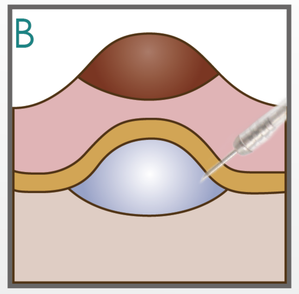

Rotatable design

Excellent coaxial rotatable performance

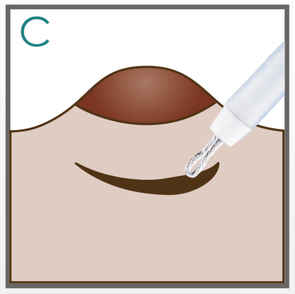

Steps of Hybrid Endoscopic Submucosal Dissection:

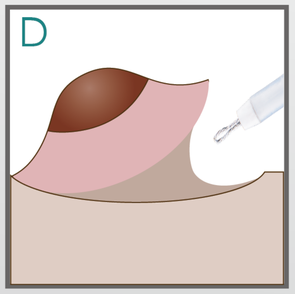

Lesion circumferential mark using ALL IN ONE device

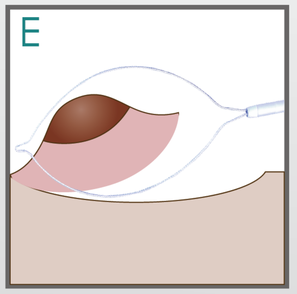

Elevate the lesion by a needle injector

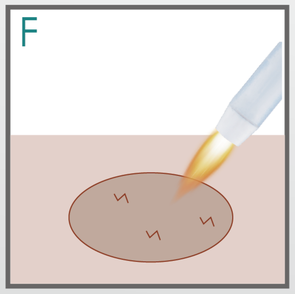

Mucosal incision using ALL-IN-ONE device

Partial submucosal dissection using ALL-IN-ONE device

Ectomy of rest lesion using ALL-IN-ONE device

Argon beam coagulation using ALL-IN-ONE device

All In One™

Single- use Snare Probe
