49m Ferris Wheel

Name:49m Ferris Wheel
Location:HangZhou,ZheJiang Province,China

DESCRIPTION OF 49M FERRIS WHEEL

Ferris wheels are large and comprehensive amusement equipment that set leisure, entertainment, stimulation and altitude viewing in one. Because of its versatility, Ferris wheels have become one of the most popular and must-have landmark equipment of an amusement place. When people take the Ferris wheel from the bottom to the highest point, they enjoy the outside world and feel the unique sensory experience it brings with. People of all ages and both sexes are happy to take a ride on the artistic amusement equipment.
The 49 meters Ferris wheel invented by our company adopts a new design concept. The rotating wheel with a diameter of 45 meters is installed on the top of the column. From a distance, it looks like a huge colorful windmill rotating slowly. With 32 gondolas, the Ferris wheel itself is the brightest scenery. Each gondola accommodates 4 person and the capacity is 128 passengers in one time.
