CHARGERCARE&TIPS

- Turn the radios off when charging the battery
- This equipment can charge NI-MH,Li-ion and Li-POLY battery
- Do not use charger as a radio stand, continuous charging will shorten battery life
- When using the Tri-chemistry charger,leave the battery in the charger for an additional 1-2hours after the steady green light appears
- Do not return fully charged battery to the charger for an extra bosst, this action will significantly reduce cycle life
- Make sure the cord is located where it will not be stepped on. Tripped over, or subject to water,damager or stress
- Our charger has overcharging protection function which will protect your battery.
