AKH-0.66/W-8 series current transformer

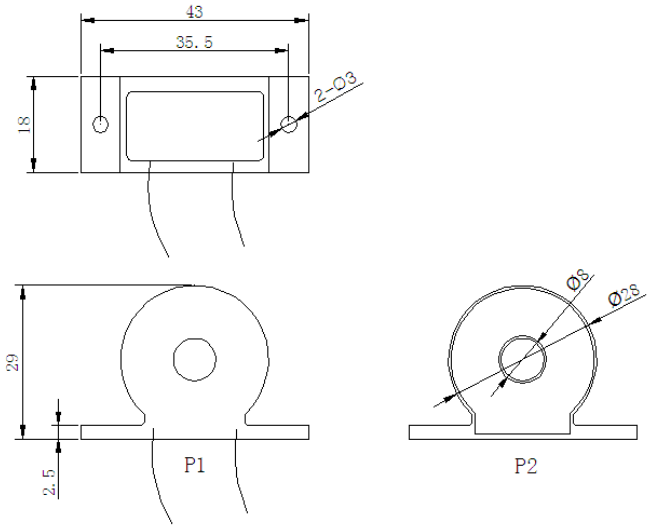

- Product feature

The product is round and the output is small current signal such as 4-20mA.It is matched with multi-loop eletric meter(AMC16). Product has the advantages of small size, high accuracy, strong load capacity, easy installation, etc.,and can save cost to realizing multi loop monitoring for users.

- Explanation for type

- Spec. and size

Note: Primary current flow from P1 to P2. The yellow second wiring is S2,the red is S1.The outlet length is 2m±10cm.

- Cross-reference tables of spec. –parameter

Specification	Rated current ratio	Precision degree and corresponding rated load(Ω)			Straight-through tums	Max. cable outer diameter(mm)
