Advantages

PRIMUSIT

- Production capacity
- R & D
- Quality control
- Rich experience
- Supports we provide

Production capacity

- Factory area : 2000㎡ in using ,2000㎡ extendable
- Up to 200K pcs /month production capacity
- Total employees: 90 (including 50 production personnel)
- Regular inventory : 20K-50K pcs
- General lead time :1-2 weeks
- Urgently lead time: 3 days
- Green channel for urgent orders
- Bring in automation equipment to increase production capacity

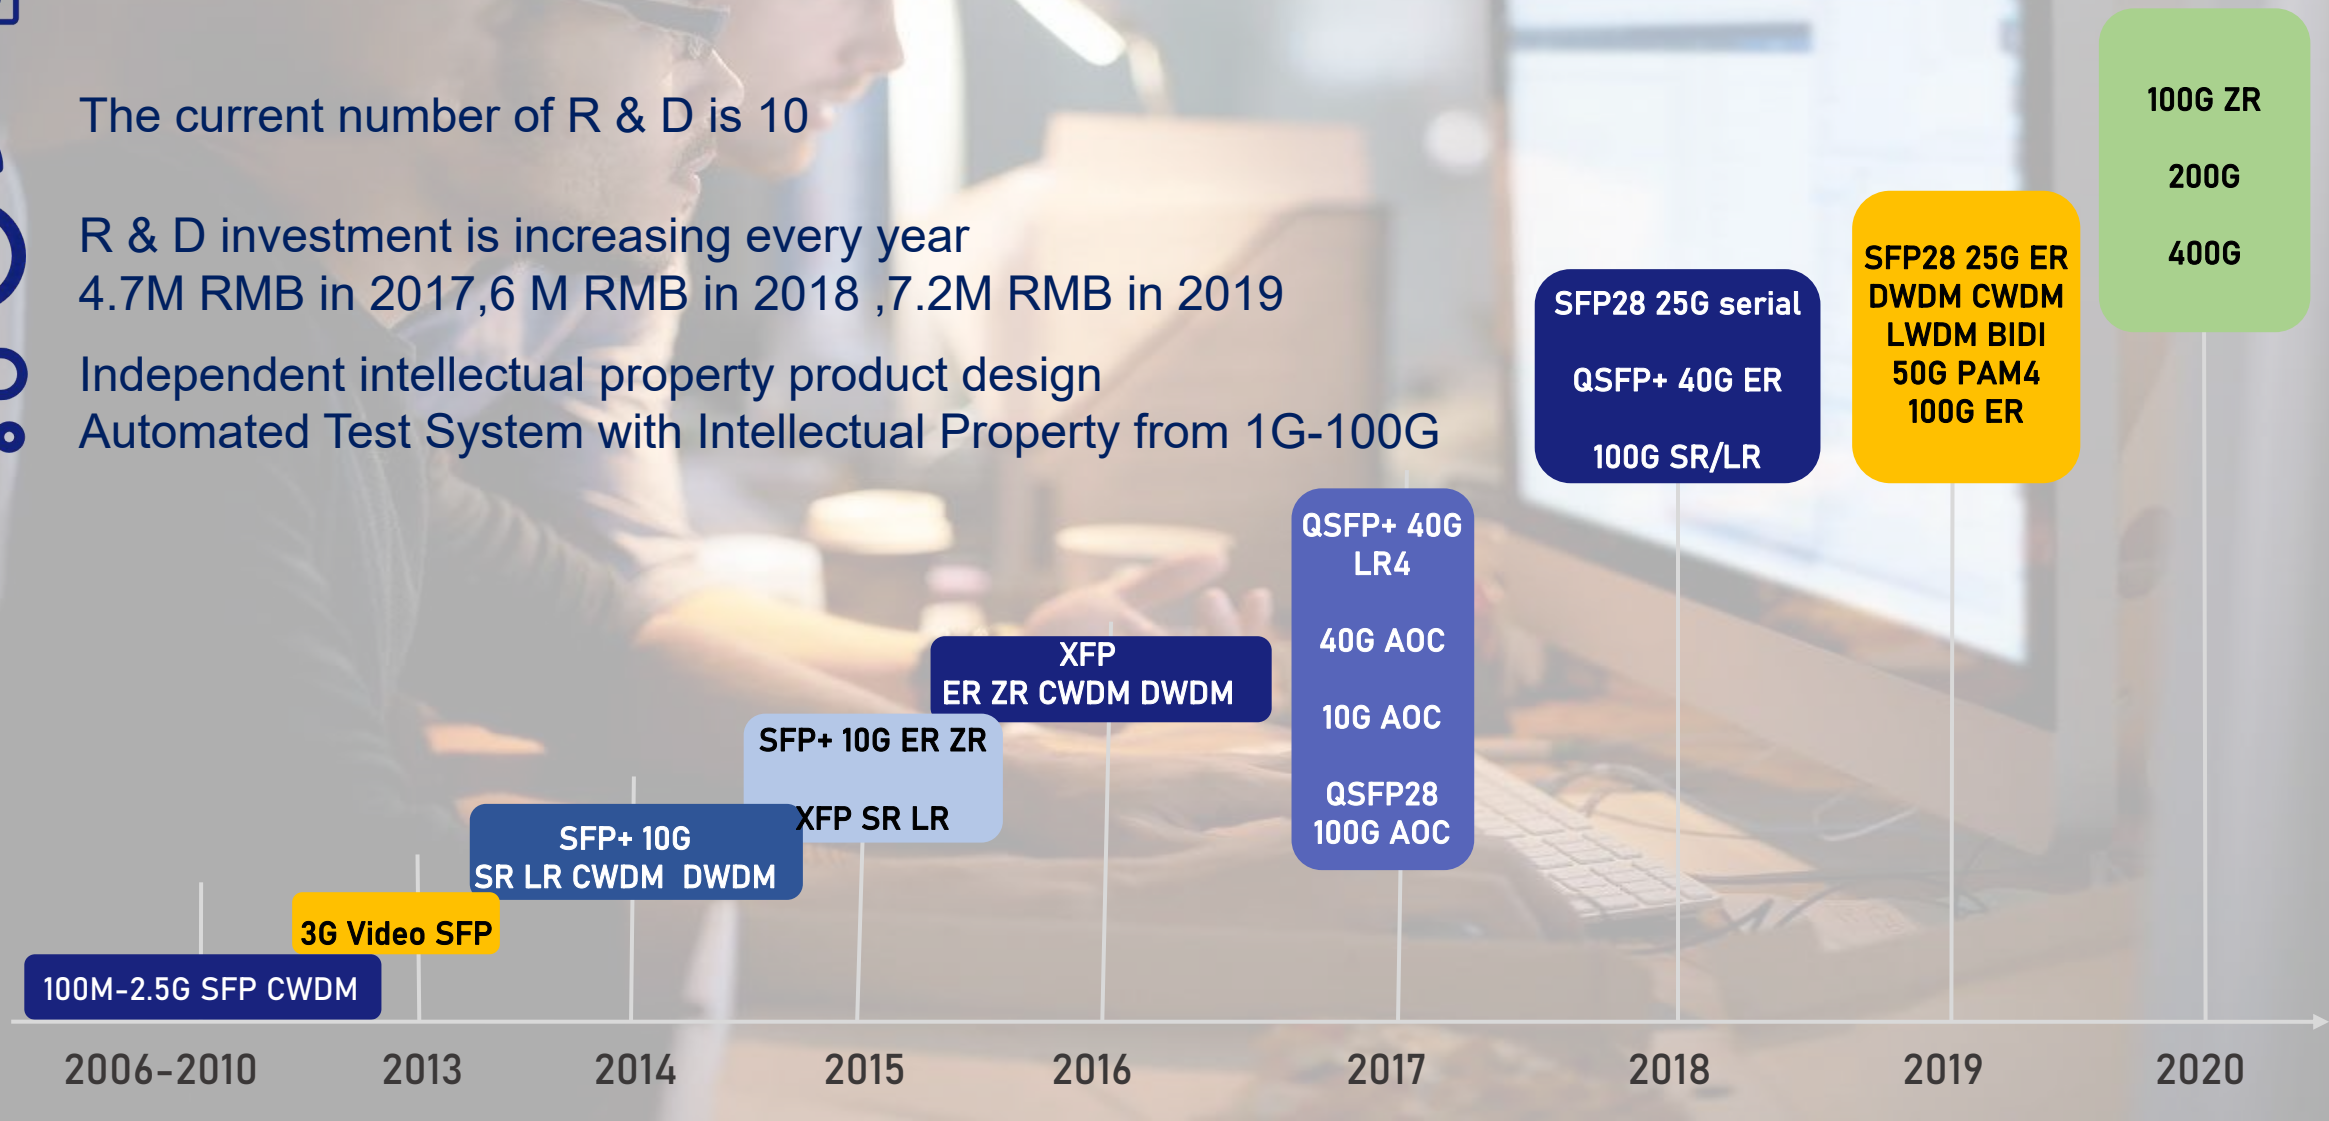

R & D strength

Core member of R & D with 15 years industry experience

The current number of R & D is 10

R & D investment is increasing every year
4.7M RMB in 2017,6 M RMB in 2018 ,7.2M RMB in 2019

Independent intellectual property product design
Automated Test System with Intellectual Property from 1G-100G

Quality control

1.A+ class ,brand new quality level raw materials

2.Standardized and strictly supplier management system

3.Complete quality control system throughout IQC-IPQC-FQC-OQC

R & D equipments

PRIMUSIT

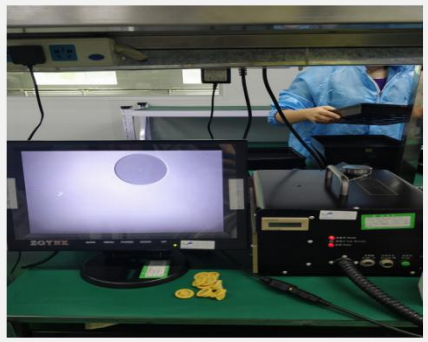

Rich experience

Cooperate with diversified global customer types more than 15 years
including **distributors, system integrators, solution providers, carriers**, etc.
Have a good understanding of their different operating concepts and business models of various ICT companies.

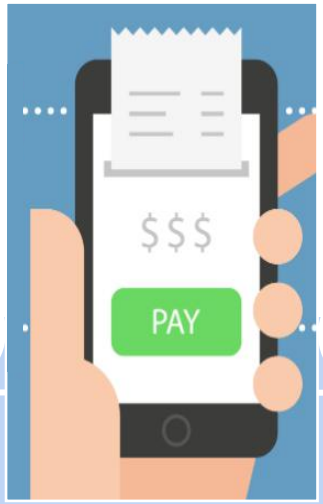

Supports we provide

Price support

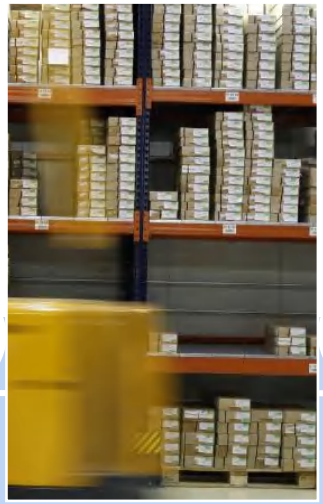

Lead time support

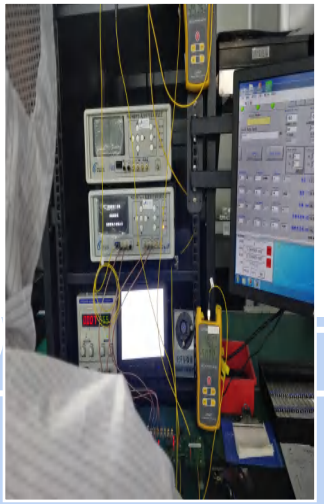

Flexible payment

Joint exhibition

Local warehouse

One-to-one service

- Completed end-to-end pre-sale and after-sales support and technical support
- Customized solutions cover every aspects of products included techinical ,packaging ,labels etc

Vision

- Deep into the 5G market
- Expand the market area to the Belt and Road
- Great company with exemplary levels of service
