Product name: Mulberry Leaf Powder

Mulberry Leaf Powder Description:

Mulberry trees (Morus) are traditionally grown mainly on leaves in Asia and North America because they are the only food eaten by silkworms. They have colorful berries, the most common being black, white or red. Mulberry leaf powder is a green powder picked from fresh mulberry leaves, washed, frozen, and dried, with a light and slightly bitter taste.

mulberry leaf powder are natural antioxidants rich in rare elements, which can remove free radicals in the body, oxidize toxins and wastes accumulated in the body, increase oxygen content in the blood, and promote metabolism and microcirculation. It is used for the treatment of hyperlipidemia, hyperglycemia, diabetes, fatty liver, coronary heart disease, hypertension, hepatitis A and B and the rehabilitation of patients with tumors after radiotherapy and chemotherapy. It has a good auxiliary effect. For patients with bad breath and oral ulcers, mulberry leaf powder has a significant inhibitory effect.

You can use our mulberry leaf powder as a food coloring for the production of cakes, beverages, candies, ice cream etc.
