产品名称：蘑菇粉
Product name: Mushroom Powder

Mushroom Powder Description:

Mushroom powder uses fresh mushrooms with intact color, size, and shape. It is a brown powder product that is dehydrated, dried, and ground without adding any chemical additives, artificial colors, and nitrites.

Mushroom powder is rich in lysine. Lysine is an essential amino acid for the human body. It can increase height and weight, enhance disease resistance, increase hemoglobin, and improve intelligence. Mushroom powder also contains many vitamins. Among them, carotene can be converted into vitamin A in the human body, so mushroom powder is also known as a treasure house of vitamin A. For people with poor appetite, regular consumption of our mushroom powder can increase appetite and detoxify to a certain extent.

You can mix mushroom powder into flour, add eggs, butter, and milk according to your preference to make mushroom biscuits, which are mellow and flavorful and chewy!
