Product name: Pumpkin Powder

Pumpkin Powder Description:

Our pumpkin powder is made of pumpkins of the right size, dried and ground in a GMP certified workshop. It is light orange, very sweet, with the taste of sweet potatoes and chestnuts, and retains the original flavor without any preservatives.

Pumpkin powder is rich in nutrients and antioxidants, a variety of amino acids, carotene, D vitamins, vitamin E, ascorbic acid, trigonelline, adenine, fat, glucose, pentosan and mannitol. In addition, it also contains Some organic acids, inorganic salts, lutein, lutein, pectin and enzymes, etc. After pectin is absorbed in the intestine, it can form a gelatinous substance, which can delay the absorption of sugar and lipids in the intestine, and has a preventive and preventive effect on diabetes and high blood pressure. Pumpkin powder also contains a variety of trace elements, of which the content of cobalt is higher than all Vegetables, and cobalt is necessary for pancreatic islet cells, which can promote the normalization of insulin secretion in patients.

Our pumpkin powder can be used to naturally enhance flavor and color in a range of food and beverage applications, including smoothies, soups, baked goods, snack bar ingredients, cereals, and pet foods. It can also be made into pumpkin puree to replace some desserts with high sugar content.
