Product name: Wheat Grass Powder

Wheat Grass Powder Description:
You want to eat vegetables, but it is annoying. Vegetables do not taste good, the cooking time is too long, and they are expensive. Now there is a wheat grass powder rich in antioxidants and nutrients, which helps to stay strong and healthy. Why not choose? Wheat grass powder is extracted from malt by squeezing juice, filtering and spray drying. It is a green fine powder, easily soluble in water. No flavors, colors, preservatives and thickeners are added, and the most natural flavor and nutritional elements of wheat grass are retained.

Wheat grass powder is rich in nutrients such as chlorophyll, vitamins A, C, E, K and B, minerals, β-carotene, etc., which can keep your body's nutrients within a healthy range. Like any antioxidant-rich product, wheat grass powder can also counteract the complications caused by free radicals. The chlorophyll in wheat grass contains a chemical composition similar to our own blood, which can promote overall health. The nutrients in wheat grass help cleanse and nourish the body, promote the normal level of white blood cells and support healthy immune function.

You can add our wheat grass powder to the freshly squeezed juice, which not only has a coloring effect, but also brings a sweet taste. You can also add an appropriate amount of wheat grass powder to the breakfast oats, which is nutritious and saves time.

Ingredients: Wheat Grass Powder

Wheat Grass Powder specifications: Powder 200-1000mesh

Wheat Grass Powder packaging:
Inner packing: 1kg/aluminum foil bag
