Save YOUR Money!

We make a wide variety of adapters which allow you to use the same audio accessory or microphone on several different models of two way radios. Our adapters can save your money when upgrading radios, allowing you to continue to use existing audio accessories that you already have. Thus you can share the same audio accessory between two different radios.

Quick Disconnect
Protect YOUR RADIO

The Quick Disconnect Adapter and Accessories provide both security and usability. Just install the adapter onto the radio and plug the QD accessory into the 6 pin or 12 pin Hirose adapter. The push-pull mechanism locks the accessory in place during use, but still allows you to quickly remove it from the radio without tools if you need to.
