## IMPLANT SLIT KNIFE

Package:6Pcs/Box

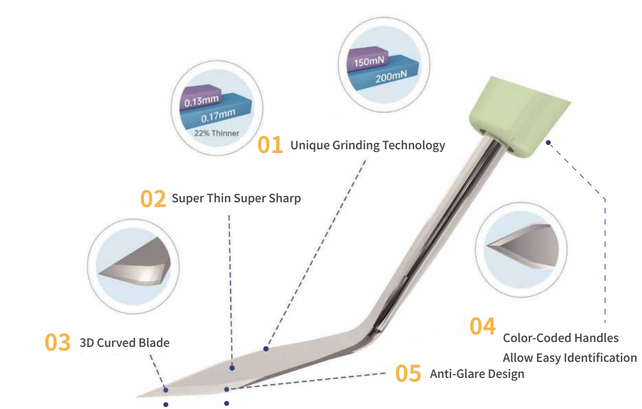

**Usage:**to enlarge incision in cataract surgeries.

**Blade features:** 3D blade design; blade edge of both sides curved to reduce resistance; initial incision enlarged in the process for lens implantation

| Specification | Bend Angle | Edge Width | Blade Thickness |
|---|---|---|---|
| KQ-L-281 | Implant Slit 45°, Bevel Up | 3.5mm | 0.15mm |
| KQ-L-282 | Implant Slit 45°, Bevel Up | 4.1mm | 0.15mm |
| KQ-L-283 | Implant Slit 45°, Bevel Up | 5.1mm | 0.15mm |
| KQ-L-284 | Implant Slit 45°, Bevel Up | 5.2mm | 0.15mm |
| KQ-L-264 | Implant Slit 45°, Bevel Up | 5.6mm | 0.15mm |

## PRODUCT FEATURES

## COMPANY PROFILE

Founded in 2009, Beijing Bohaikangyuan Medical Devices Co., Ltd. is identified as a National high-tech enterprise and Zhongguancun high-tech enterprise. Focusing on microsurgical instruments' innovative research and development, we provide overall solutions for microsurgery, super-precision microsurgery, and peripheral vascular interventional surgery.

Located in Beijing Tongzhou Science Park, our two modern research and production bases covers total of 4000㎡. With excellent scientific and technical personnel and R&D team, our company has obtained ISO13485，EN:ISO13485，CFDA, CE，IPMS, dozens of patent authorizations, 3 Beijing new technology certificates and other awards issued by the state and the municipal government.

Our product line coves orthopedics, neurosurgery, microsurgery, cardiovascular surgery, ophthalmology, otolaryngology, plastics, and other fields. Our products are widely used in over a thousand hospitals in China and highly praised by users and agents.

In the future, we will continue to take "Innovation for Life" as our mission and dedicate to be a global provider of precision surgical instruments in the field of microsurgery. Expand the Bohaikangyuan medical platform with a professional service concept, carry forward the Bohaikangyuan medical spirit, and strive for the health of humankind!

# DISPOSABLE PRECISION CUTTING TOOL

OPHTHALMIC KNIFE

## R&D BACKGROUND

Surgery under the ophthalmic microscope requires extremely high operating tools. Professional ophthalmic surgical tools are not only convenient for doctors to operate, but also conducive to the healing of postoperative incisions.

It has been clinically verified that the product has unique advantages in reducing puncture injury, incision tightness, promoting healing and preventing infection, and is more in line with clinical needs.

It has been clinically verified that the product has unique advantages in reducing puncture injury, incision tightness, promoting healing and preventing infection, and is more in line with clinical needs.

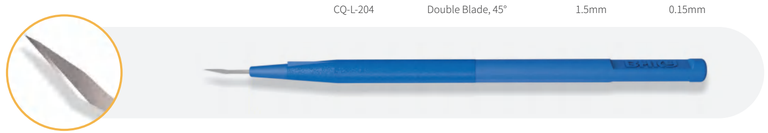

## STRALGHT KNIFE

Package:6Pcs/Box

**Usage:** lateral corneal incision and scleral tunnel incision in cataract surgery.

**Blade features:** double-sided blade design; smoothing on both sides; less sense of resistance and emptiness during punctures; precise and stable incision, good self-sealing.

| Specification | Bend Angle | Edge Width | Blade Thickness |
|---|---|---|---|
| CQ-L-200 | Double Blade, 0° | 1.5mm | 0.15mm |
| CQ-L-201 | Double Blade, 22.5° | 1.5mm | 0.15mm |
| CQ-L-202 | Double Blade, 15° | 1.5mm | 0.15mm |
| CQ-L-203 | Double Blade, 30° | 1.5mm | 0.15mm |
| CQ-L-204 | Double Blade, 45° | 1.5mm | 0.15mm |

## SPECIAL GOLF KNIFE

Package:6Pcs/Box

**Usage:** pterygium excision.

**Blade features:** blunted for safety; easy to remove pterygium; less damage to cornea.

| Specification | Bend Angle | Edge Width | Blade Thickness |
|---|---|---|---|
| BL-B-288 | Stright Golf Knife | \ | \ |

## SLIT KNIFE

Package:6Pcs/Box

**Usage:** to make transparent corneal incision in cataract surgeries.

**Blade features:** 3D blade design, curved blade edge; super sharp,less sense of resistance and emptiness during punctures; accurate, stable and regular incision, good self-sealing.

| Specification | Bend Angle | Edge Width | Blade Thickness |
