Product name: **Freeze Dried Apple Powder**

Freeze Dried Apple Powder Description:

Our freeze dried apple powder is made of full-grained, bright red apples using the most advanced freeze-drying technology, without any chemical additives and nitrous acid! Ensure to lock in all the nutrition of this healthy food!

The sweetness of our freeze-dried apple powder comes from the approximately 10% fructose and sucrose naturally contained in the fruit, so the cooling and thirst quenching effect we obtain when eating apples is probably due to the presence of tannins in the food. It is also rich in vitamins and minerals, and rich in antioxidants. It contains a lot of polyphenols and flavonoids that contribute to overall health. Our freeze dried apple powder is also rich in insoluble fiber, which can help digestion.

You can put our freeze-dried apple powder into breakfast yogurt to supplement the nutrition you need for a day. After all, an apple a day keeps the doctor away.

Ingredients: Freeze Dried Apple Powder
